

# CUSHION CARE

APRIL 2014

**FLIP** CUSHIONS AND PILLOWS ON A REGULAR BASIS. THIS IS CRUCIAL IN MAINTAINING THE SHAPE AND TO EXTEND THE LIFE OF YOUR CUSHIONS.

**FLUFF** CUSHIONS AND PILLOWS ON A REGULAR BASIS. TAKE EACH CUSHION AND PUSH ALONG THE CUSHION SURFACE FRONT TO BACK AND SIDE TO SIDE TO WORK BACK INTO SHAPE.

**REGULATE** CUSHIONS IF THE COVER SEAMS ARE WAVY AND DO NOT LINE UP WITH THE CUSHION SHAPE. UNZIP THE COVER AND HOLD TOP OF COVER BY ZIPPER WITH ONE HAND. WITH THE OTHER HAND REACH INSIDE THE COVER TO GRAB THE FRONT OF THE CUSHION. PULL IN OPPOSITE DIRECTIONS TO SHIFT THE CUSHION TO ITS CORRECT POSITION INSIDE THE COVER.

VACUUM UPHOLSTERY AND LEATHER FURNITURE REGULARLY WITH A SOFT BRUSH ATTACHMENT.

## FOR CUSHIONS AND PILLOWS THAT CONTAIN FEATHERS AND DOWN

- FEATHERS AND DOWN WILL SETTLE OVER TIME AND HAVE A MORE RELAXED APPEARANCE THAN A FOAM CUSHION. CUSHIONS AND PILLOWS THAT CONTAIN FEATHERS AND DOWN REQUIRE MORE FREQUENT MAINTENANCE.
- FEATHERS AND DOWN MAY OCCASIONALLY WORK THEIR WAY THROUGH THE DOWNPROOF TICKING. THIS IS NORMAL AND SHOWS THAT THE CUSHION IS "BREATHING" PROPERLY.
